v. 82

Textile World

The World's Textile Authority

INDEX TO VOLUME 82

July to December, 1932

BRAGDON, LORD & NAGLE COMPANY

Division of McGraw-Hill Publishing Co., Inc.

330 West 42nd St., New York

General Alphabetical Index

PAGES BY ISSUES

July 45-116
August 221-292
September 413-592
October 721-796
November 947-1018
December 1143-1214

A

Accounting

Cost system at B.Z.B. Knitting Co. R. L. Spillane 558
Sales and records at B.Z.B. Knitting Co. go hand in hand. C. L. St. Clair.... 1174

Advertising

Brands and packages featured by sales promotion (Neisler Mills, Inc.) 230
Packaging as applied to various textile products 89
Television for textile promotion 544
American Association of Textile Chemists & Colorists—Bleaching, dyeing and printing considered at meeting..... 1152
American Society for Testing Materials—Rayon's basic structure discussed by committee D-13 77
American Society of Mechanical Engineers—Dye costs and machinery progress discussed 1172
Aromatics for reodorizing textiles..... 1173

B

Bleaching

A.A.T.C.C. considers bleaching at meeting 1152
Mohair plush. Fred Archer..... 557
Peroxide bleach discussed by engineers.. 1172
Sewing threads, bleaching and dyeing (Q) 776
Book reviews 102; 278; 578; 782; 1005; 1200
Budget balancing in silk and rayon throwing and weaving. Abraham Weiss.... 58

Business

Anti trust law. Paul Wooton..... 1186

C

Carpets and Rugs

Automobile carpet (Q) 1000
Cartels speed rationalization of European rayon industry. J. G. Oliver..... 420
Chart giving spinning room records. J. C. Cobb 52
Coffin, Howard E. heads General Textiles, Inc. 1148

Color

Level dyeing colors for viscose rayon... 257
Packaging as applied to various textile products 89

Costs

Budget balancing in silk and rayon throwing and weaving. Abraham Weiss 58
Cost system at B.Z.B. Knitting Co. R. L. Spillane 558
Finishing plant costs reduced by analysis of methods and policies. T. G. Laufer 236
Printing profits—are they possible today? M. W. Alling..... 740
Silk soaking—cost of open tub and machine methods 755
Yarn costs in circular knitting. S. M. Peterson 972

Cotton

Acreage estimate helps to define crop outlook 67
1931 crop inferior 68

Cotton Manufacturing

Abuses in cotton textile merchandising should be corrected. B. B. Gossett.. 48
Break draft. A. K. Landau 1169
Bunches in cotton yarn (Q) 577
Cable cord, twists in (Q) 1000
Cassimeres of cotton wool. G. R. Stevens. 750
Cloth calculations for draperies (Q) 100
Crochet, imitating hand 542
Defects in cotton yarn. A. D. Barnard.. 546
Detergents—soaps, alkalis and other compounds 752
Felt, tarnish-proof (Q) 277
Gummy substance on yarn guides (Q) ..1197
Handbag fabrics. Thomas Nelson.....1163
Hot-air slashing of cotton (Q) 100
Institute votes to deal with legislative matters 956
Laboratory of Dixie Mercerizing Co.... 258
Lewis deplores lost opportunity for profits at N. C. meeting 1182
Licker-in speed—effect on card waste, sliver and yarn. Horace Spibey.....1166
Long draft vs. regular. J. C. Cobb.... 738
Mercerizing, skein (Q) 576
Merchandising in cotton textiles offers opportunity. Dr. M. T. Copeland.... 732
Merger proposed as stabilizer in cotton goods distribution. F. W. Jefferson.. 226
Mixing and blending of stock. A. K. Landau 244
New cotton uses 765
Night work approaching showdown in cotton industry 225
Nine-meter sizings dependable for measuring evenness. W. P. Seem..... 246
Novelty yarns 265
Picker laps, regain of (Q) 276
Pre-shrinking discussed at Southern Textile Assn. meeting 969
Prison duck mill represents excessive competition 760
Ratine, defect in (Q) 776
Red Cross cotton 983
Ribbonzene, equipment for (Q) 577
Roving, long draft in. J. L. Truslow.. 966
Salesmanship—what it did for Powdrell & Alexander in 1932 964
Seersucker weaving. Thomas Nelson.... 73
Slashing and weaving discussed by Textile Operating Executives of Georgia.. 746
Sloan asks industry to become profit-minded 956
Spinning ring, life of (Q) 576
Spinning room methods simplified by chart. J. C. Cobb..... 52
Straight wire card clothing. C. A. Dickens 550
Swivel weaving (Q) 1197
Twist direction (Q) 276
Velour, cotton, white spots on (Q) 1196
Warp preparation and weaving improved by modern equipment 238
Wetting out agents 256
Yarn tendered by acid (Q) 101

Cotton Textile Institute

Hours and wages criticized by W. C. Teagle 1162
Night work policy re-affirmed 1147
Votes to deal with legislative matters.. 956

D

Design

Cassimeres of cotton wool. G. R. Stevens 750
Cotton—new uses 765
Crepe Jerico. John Picone 529
Crepes, rough, new rayon feature. C. C. Mattmann, Jr. 566
Crinkled prints 978
Cut presser diagonals in circular spring needle design. J. F. Cahill..... 70
Felt company creates an apparel vogue.. 734
Filling back, warp face. R. A. C. Scott.. 552
Filling backed cloths—stitching for twill and basket weaves. R. A. C. Scott.. 249
Frosted georgette. B. D. Blackman....1160
Handbag fabrics. Thomas Nelson.....1163
Infelligent styling service. L. G. Salembier 242
Knit-underwear design. P. W. Niles.... 744
Lenos with steel doup (Q) 777
Mock leno design. T. R. Hart..... 728
Novelty yarns—study of types and variations 265
Printing acetate fabrics 568
Printing viscose fabrics 565
Rayon neckties. John Picone..... 975
Velvet, boucle transparent. M. N. Roux. 743
Velvet, double faced. M. N. Roux.... 251
Wool novelties 1187
Woolen novelty from Scotland. G. R. Stevens 61
Detergents—soaps, alkalis and other compounds 752
Durene Association of America—Promotional efforts results in market expansion 749

Dyeing

A.A.T.C.C. considers dyeing at meeting..1152
Costs of dyeing cottons discussed by engineers 1172
Cotton velour, white spots on (Q) 1196
Cotton waste dyeing (Q) 1001
Dyestuff affinity and mercerization (Q).. 776
Fast dyes, present and potential uses.. 80
Jig, all electric, gives constant speed and tension 1178
Level-dyeing colors for viscose rayon.... 257
Listing is common fault in piece dyed woolens and worsteds 259
New equipment for raw stock and yarn processing makes 135% return 64
Sewing threads, bleaching and dyeing (Q) 776
Skein dyeing rayon. R. H. Harris..... 536
Waste heat value. John Alden..... 759

E

Elastic fabric. See Knit Goods.

Engineering

Bobbin conveyor at Maverick Mills.... 561
Boiler plant, modernized, saves 31% in operating costs. S. B. Gammel..... 984
Corrosion prevention in the rayon plant. T. R. Olive..... 530

(Q) Questions and answers

Drives, mechanical research with regard to—S.T.A. meeting 1183
Group drive. F. H. Willard 82
Jig, all electric, gives constant speed and tension 1178
Mill audits or engineering surveys aid mills to meeting changing conditions .. 228
Mill modernization as part of intelligent plan. L. W. Robert, Jr. 726
Rubber compounds used for industrial applications solve corrosion problems .. 254
Steam traps—proper installations insure satisfactory service. T. H. Rea 758
Surge voltage in secondary circuits paper at S.T.A. meeting 1183
Waste heat value. John Alden 759

Exhibitions

Power show 1181
Southern exposition—today and fifty years ago 725
Southern Textile Exposition 952
Southern Textile Exposition — Textile World's guide 761
Fibers, finding amounts of, in mixed textiles. Krais & Markert 754
Finance—Credit, if available, would speed modernization 560

F

Finishing

Acid tenders yarn (Q) 101
Aromatics for reodorizing textiles 1173
Costs of finishing plant reduced by analysis of methods and policies. T. G. Laufer 236
Creaseproof fabrics 590
Knit goods finishing. W. E. Herrick .. 970
Knitted men's wear reduced in cost on circular machines. A. W. France 253
Laboratory of Dixie Mercerizing Co. ... 258
Mercerizing, skein (Q) 576
Mildew prevention. K. M. Herstein 78
Mothproofing compounds 979
Rayon crepes—finishing methods. E. F. Jordan 739
Rayon ribbon finishing (Q) 777
Transparent velvet finishing. Jack Jarmak 535
Waterproofing compounds 559
Wetting-out agents 258
Woolen outerwear (Q) 776

H

Hosiery

Barre causes often eludes hosiery knitter. H. C. Roberts 1177
Bars in full fashioned (Q) 277
Cost system at B.Z.B. Knitting Co. R. L. Spillane 558
Crease marks in welt (Q) 1197
Defects in silk hosiery (Q) 276
Full-fashioned defects caused by faulty machine operation avoided. A. E. Parker 1154
Full-fashioned narrowing—putting on the loops. M. C. Miller 74
Full-fashioned narrowing demands accurate settings. M. C. Miller 736
Half hose progress. H. E. Clayton 54
Holes in silk hose (Q) 1001
Line, irregular, in hosiery (Q) 577
Mercerization and dyestuff affinity (Q) .. 776
Mercerized defect in (Q) 777
Mercerized stockings vary in shade (Q) . 100
Merchandising of high grade hosiery by Walter Fred Mills 543
Needle straightening for the full-fashioned knitter. A. E. Parker 233
Non-run hosiery 556
Photograph your hosiery for post mortems. H. C. Roberts 252
Photographs show cause of defects. H. C. Roberts 748
Rayon hosiery holds popularity. F. E. Baker 526
Shade variation eliminated 974
Silk sizes for hosiery (Q) 777
Silk soaking problems (Q) 101
Spots in dyed hosiery (Q) 1000
Steaming bobbins in throwing hosiery tram 81
Wool and rayon hosiery yarn (Q) 276
Yarn robbing in circular hosiery knitting. W. A. Simond 962

J

Japan

Silk conditioning. C. E. Mullin 553

K

Knit Goods

Cut presser diagonals in circular spring needle design. J. F. Cahill 70
Elastic web, severed threads in (Q) 1001
Finishing knit goods. W. E. Herrick .. 970
Men's wear reduced in cost on circular machines. A. W. France 253
Rayon mesh (Q) 1196
Swimsuit styles governed by censor 756
Underwear design. P. W. Niles 744
Yarn costs in circular knitting. S. M. Peterson 972

L

Labor

Budget balancing in silk and rayon throwing and weaving. Abraham Weiss .. 58
Farmer mill workers suggested at S.T.A. meeting 57
Hours and wages in textile mills criticized by W. C. Teagle 1162
Mill villages—their improvement and maintenance. A. E. Jury 69
Moratorium on Massachusetts labor restriction asked 1157
Night work approaching showdown in cotton industry 225
Night work policy re-affirmed by Cotton Institute 1147
Silk examiner. J. G. Halsey 976
Village activities in South expand during depression 545
Village improvement evidenced by Joanna's standards 757
Wage study in wool mill. C. H. Hatch . 240
Wages too low, says retiring president of N.A.C.M. 730
Work-week, flexible. H. P. Kendall 539

Loom

Lay motion adjustment on silk and rayon looms. H. E. Wenrich 250
Setting wool loom stop and head motions. B. F. Hayes 76
Silk loom fixes involving the lay motion. H. E. Wenrich 554
Timing lock knife and repairing wool loom vibrations. B. F. Hayes 971
Lubrication—Petroleum products in wool oiling and machinery lubrication 982

M

Machinery

Automobile man looks at the textile industry. P. R. Collier 1150
Bobbin conveyor at Maverick Mills 561
New equipment for raw stock and yarn processing makes 135% return 64

Maintenance

Belted motor drives, how to obtain satisfactory service from. R. W. Drake .. 260
Mill villages—their improvement and maintenance. A. E. Jury 69
Oiling and cleaning motors—S.T.A. meeting 1183

Management

Analysis of methods and policies reduces finishing plant costs. T. G. Laufer .. 236
Budget balancing in silk and rayon throwing and weaving. Abraham Weiss ... 58
Cartels speed rationalization of European rayon industry. J. G. Oliver 420
Cost system at B.Z.B. Knitting Co. R. L. Spillane 558
New picture (ed) 415
Overcoming inequalities in textile mill valuations 50
Prison duck mill represents excessive competition 760
Salesmanship—what it did for Powdrell & Alexander in 1932 964
Silk examiner. J. G. Halsey 976
Technical men are not luxuries (ed) 47
Village activities in South expand during depression 545
Village improvement evidenced by Joanna's standard 757
Manufacturing — Mill modernization as part of intelligent plan. L. W. Robert, Jr. 726
Engineering surveys aid mills to meet changing conditions 228

Merchandising

Cheapening of rayon outerwear and underwear retarded. G. L. Logan 533
Cotton—new uses 765
Cotton merger proposed as stabilizer in distribution. F. W. Jefferson 226
Cotton textile merchandising abuses should be corrected. B. B. Gossett 48
Cotton textile merchandising offers opportunity. Dr. M. T. Copeland 732
Durene's promotional efforts results in market expansion 749
Felt company creates an apparel vogue .. 734
Grouped selling of household textiles .. 1180
Hosiery, high grade, merchandising by Walter Fred Mills 543
Howard E. Coffin heads General Textiles, Inc. 1148
"Made-cheap-sell-cheap" rebelled against by industry 62
Packaging as applied to various textile products 89
Price cutting orgy threatens rayon 83
Prison duck mill represents excessive competition 760
Rayon—a yarn business, not a bonanza. R. W. Scott 232
Rayon quality is fall aim of producers .. 528
Red Cross cotton—how 500,000 bales have been handled 983
Sales promotion features brands and packages. Neisler Mills, Inc 230
Sales and records at B.Z.B. Knitting Co. go hand in hand. C. L. St. Clair 1174
Salesmanship—what it did for Powdrell & Alexander in 1932 964
Sellers' market paves way for strong rayon rise 421
Silk prices show upward trend 555
Styling service. L. G. Salembier 242
Swimsuit styles governed by censor 756
Television for textile promotion 544
Textile selling offices, keying to modern merchandising 991
Mergers—Cotton merger proposed as stabilizer in distribution. F. W. Jefferson . 226

Microscope

Stereoscopic microscope shows textiles as they are. E. R. Schwarz 1176
Mildew prevention. K. M. Herstein 78

Modernization

At least one can plan (ed) 223
Boiler plant, modernized, saves 31% in operating costs. S. B. Gammel 984
Cotton warping and weaving improved by modern equipment 238
Credit, if available, would speed modernization 560
Mill modernization as part of intelligent plan. L. W. Robert, Jr. 726
New equipment for processing makes 135% return 64
Village activities in South expand during depression 545
Village improvement evidenced by Joanna's standards 757
Mohair—Bleaching mohair plush. Fred Archer 557
Mohair manufacturing—Shorts and grease in mohair yarn (Q) 101
Mothproofing compounds 979

N

National Association of Cotton Manufacturers—Boston convention 730
Textile wage too low, says retiring president 730
National Association of Hosiery & Underwear—New York meeting 958
Silk and rayon position defined 961
National Knitted Outerwear Assn. & Wholesale Dry Goods Institute—Outerwear convention 56

New Machinery and Processes

Belt, rubber, compensated 1198
Bobbin, Pyrex steaming 575
Brush and shear, combination 780
Cabinet, vapor pressure and temperature control 98
Calculator, yarn 274
Chronolog 1002
Counting glass, illuminated 575
Drawing, controlled-draft 1002
Dryer, tenter 1003
Dye kettles 778
Dye kettle and bleach tub 574
Dyeing machine, package 574
Dyeing machine, sample 575
Dyeing process, top and yarn 574
Extractor, gyro-balanced 779
Felling machine 779
Ferox process 779
Full-fashioned machine 1003
Flooring, heavy duty 99
Gassing machine, skein 575
Grinder, napper roll 274
Hosiery, circular, with square heal and loose weld 1198
Hosiery-inspection form 575
Hosiery machine, combination circular .. 1199
Humidifier nozzle, self-cleaning 1004
Instruments, graphic 98
Jig, constant speed 1004
Leasing device, automatic, for ball warps 778
Lubricant 275
Motor, direct current and splash-proof .. 274
Motors, gear 98
Motor, open type textile 780
Motor pulley countershaft unit, vari speed 780
Motor, stainless steel 98
Pillow block, ball bearing 275
Pitman roll, roller bearing 274
Plating unit, chromium 780
Printing rolls, photo-engraved 98
Pump, centrifugal 98
Pump, propeller type 780
Pump, proportioning 274
Reducer, motorized 274
Regulator, constant-tension 274
Ring twister, worsted 1002
Roll spacing determinator 779
Separator roll, ball bearing 574
Spindle, high speed 1199
Spool, fiber head 1198
Starter, combination 575
Steaming, tubular, tentering and finishing machine 1004
Steel—two ply stainless 274
Stenciling outfit 99
Strap cutting tool 99
Switch, pneumatic 98
Tenter, automatic straightaway 1198
Testing machine, portable 275
Transmission, multi speed 99
Trap, inverted bucket 99
Trap, inverted bucket steam 275
Traveler, bevel edge 1198
Truck, cylinder 779
Truck, lift 98
Truck, lifting and tiering 274
Twister, dual type 1003
Twisters, improved 275
Ultramicroscope, unified slit 99
Vibroscope 1199

(Q) Questions and answers

Washer, cloth 574
Welder, "Shield Arc" 99
Wire swifts, light weight 1003
New Uses Committee—Cotton—new uses .. 765
North Carolina Cotton Mfrs. Assn.—Lost opportunity for profits deplored by K. P. Lewis 1182

O

Obsolescence. See Modernization.

Outerwear

Cheapening of rayon outerwear and underwear retarded. G. L. Logan 533
Convention moves for wholesaler harmony 56
Knitted men's wear reduced in cost on circular machines. A. W. France ... 253
Rayon neckties. John Picone 975
Woolen outerwear finishing (Q) 776

Overseer's Round Table

About engineering studies 986
About secret processes 272
Dealing with slack times 96
Encouraging workers to be thrifty 1184
Getting a new overseer 562
Value of a mill newspaper 774

P

Packaging—Sales promotion features brands and packages. (Neisler Mills, Inc.) ... 230
Packaging as applied to various textile products 89
Petroleum products in wool oiling and machinery lubrication 982
Photograph your hosiery for post mortems. H. C. Roberts 252
Photographs—Hosiery defects shown by photographs. H. C. Roberts 748

Power

Belted motor drives, how to obtain satisfactory service from. R. W. Drake .. 260
Boiler, new, at Caron Spinning Co. increases plant efficiency. K. C. Schmidt. 84
Boiler plant, modernized, saves 31% in operating costs. S. B. Gammel 984
Drives, mechanical research with regard to—S.T.A. meeting 1183
Group drive. F. H. Willard 82
Jig, all-electric, gives constant speed and tension 1178
Steam traps—proper installations insure satisfactory service. T. H. Rea 758
Surge voltage in secondary circuits paper at S.T.A. meeting 1183
Waste heat value. John Alden 759
Power show 1181

Printing

A.A.T.C.C. considers printing at meeting.1152
Acetate fabrics, printing 568
Profits in printing . . . are they possible today? M. W. Alling 740
Streak in printed silk (Q) 776
Viscose fabrics, printing 565
Procter & Gamble Co.—Silk soaking problems (Q) 101

R

Rayon

Basic structure of rayon discussed by Committee D-13 of A.S.T.M. 77
U. S. rayon output for 1932, 20% less than 1931 416
World rayon output, 3% more than 1931 417

Rayon Manufacturing

Acetate, cockled filling in (Q) 1197
Budget balancing in silk and rayon throwing and weaving. Abraham Weiss.... 58
Cartels speed rationalization of European rayon industry. J. G. Oliver..... 420
Cheapening of outerwear and underwear retarded. G. L. Logan..... 533
Cloth calculations for draperies (Q).... 100
Corrosion prevention in the rayon plant. T. R. Oliver 530
Crepe Jerico. John Picone 529
Crepes, rough, new feature. C. C. Mattmann, Jr. 566
Detergents—soaps, alkalis and other compounds 752
Durene's promotional efforts results in market expansion 749
Finding amount of rayon and other fibers in mixed textiles. Krais & Markert.. 754
Finishing rayon crepes. E. F. Jordan.. 739
Hosiery, rayon, holds popularity. F. E. Baker 526
Knitted rayon mesh (Q) 1196
Lay motion adjustment on silk and rayon looms. H. E. Wenrich 250
Level dyeing colors for viscose rayon... 257
Melting point of rayon (Q) 276
Neckties of rayon. John Picone 975
Nine-meter sizings dependable for measuring evenness. W. P. Seem 246
Novelty yarns 265
Price cutting orgy threatens industry .. 83
Printing acetate fabrics 568
Printing viscose fabrics 565
Processing rayon fabrics. Ray Cottrell. 534
Quality in rayon is fall aim of producers 528
Rayon—a yarn business, not a bonanza. R. W. Scott 232
Rayon woolen blends. H. R. Woodward. 973
Ribbon effect in rayon warp (Q) 1196
Ribbon finishing (Q) 777
Ribbon, ridges in (Q) 1001
Ribbonzene, equipment for (Q) 577
Scott defines rayon position 961
Seller's market paves way for strong rayon rise 421
Skein-dyeing rayon. R. H. Harris 536
Technical developments in rayon manufacture. H. D. Smith 418
Throwing, progress in rayon. S. H. Gilston 524
Twist direction (Q) 276
Velvet, double-faced. M. N. Roux 251
Velvet, transparent, finishing. Jack Jarmak 535
Warp-streaks in rayon crepes 72
Waste spun as cotton. C. A. Weston.. 422
Wetting-out agents 256
Woolen-rayon blends. H. R. Woodward.. 423
Rayon year book number. September.

Research

Automobile man looks at the textile industry. P. R. Collier 1150
Engineering surveys aid mills to meet changing conditions 228
Laboratory of Dixie Mercerizing Co. 258
Organized research nearer accomplishment as Textile Foundation and U. S. Institute of Textile Research cooperate.1158

Rubber

Chemical resistance of rubber compounds 254
Rugs. See Carpets and Rugs.

S

Silk—Raw

Prices show upward trend 555

Silk Manufacturing

Acid degumming for silk wool unions. H. H. Mosher 1170
Advance layout of work in silk throwing. S. H. Gilston 1164
Analyzing silk fabric (Q) 576
Bobbins discolor silk (Q) 1001
Budget balancing in silk and rayon throwing and weaving. Abraham Weiss.. 58
Crepe, dirty filling in (Q) 1196
Crepe, weighted silk, creases in (Q).... 100
Crinkled prints 978
Defect in silk fabric (Q) 576
Detergents—soaps, alkalis and other compounds 752
Examining department. J. G. Halsey.. 976
Frosted georgette. B. D. Blackman 1160
Gerli outlines silk position 961
Japan's silk conditioning. C. E. Mullin. 553
Lay motion adjustment on silk and rayon looms. H. E. Wenrich 250
Lay motion fixes. H. E. Wenrich 554
Nine-meter sizings dependable for measuring silk evenness. W. P. Seem 246
Satin-six shaft (Q) 277
Shantung crepe constructions (Q) 1197
Silk-wool unions, usual degumming methods harmful. H. H. Mosher 980
Soaking of silk 755
Soaking problems (Q) 101
Soaking silk warps (Q) 576
Streak in printed silk (Q) 776
Twist direction (Q) 276
Velvet, boucle transparent. M. N. Roux 743
Velvet, double faced. M. N. Roux 251
Water drop test for silk (Q) 101
Wetting-out agents 256
Southern Textile Assn. — Farmer-mill workers suggested at meeting 57
Master mechanics division discuss electrical and mechanical problems 1183
Pre-shrinking discussed at meeting 969
Southern Textile Exposition 725, 952
Textile World's guide 761
Spinning—Noble comb adjustment for spinning fine yarns. F. B. Hudson 66
Spinning-room chart. J. C. Cobb 52

T

Tarnish-proof felt. See Cotton Manufacturing.

Taxes

Overcoming inequalities in textile mill valuation 50
Television, last work in textile promotion. 544

Testing Materials

Finding amount of rayon and other fibers in mixed textiles. Krais & Markert. 754
Water drop test for silk (Q) 101
Textile Foundation and U. S. Institute for Textile Research cooperate 1158

Textile Industry

Anti-trust law. Paul Wooton 1186
Automobile man looks at the textile industry. P. R. Collier 1150
Call to "gentlemen" (ed) 1145
Rebels against "made-cheap-sell-cheap" policy 62

Novelties in wool 1187
Novelty yarns 265
Petroleum products in wool oiling and machinery lubrication 982
Repairing wool loom vibrations. B. F. Hayes 971
Setting wool loom stops and head motions. B. F. Hayes 76
Silk wool unions, usual degumming methods harmful. H. H. Mosher 980
Stain in semi-decated fabric (Q) 577
Stripping sweater clips (Q) 577
Swimsuit styles governed by censor 756
Twist direction (Q) 276
Wage study in wool mill reduced costs and maintained quality. C. H. Hatch. 240
Wetting-out agents 256
Wool oiling tests. Speakman & Franks. 548
Yellow stain in semi-decated fabric (Q) 277

Woolen Manufacturing

Cassimeres of cotton wool. G. R. Stevens 750
Listing is common fault in piece dyed woolens and worsteds 259
Novelty woolen from Scotland. G. R. Stevens 61
Outerwear, woolen, finishing (Q) 776
Rayon-woolen blends. H. R. Woodward 423
Rayon woolen blends. H. R. Woodward. 973
Weight, increasing, of woolens (Q)...1196

Worsted—Manufacturing

French comb is practical for long wools. L. M. Harless 960
Listing is common fault in piece dyed woolens and worsteds 259
Noble comb adjustments for spinning fine yarn. F. B. Hudson 66
Open drawing of wasty tops. F. B. Hudson 1165
Sliver guides necessary. Webster Norris 551
Thickness of yarn measured to find levelness. G. R. Stanbury 255
Worsted-card grinding—precautions for fine wools. F. B. Hudson..... 753

Y

Yarn—Twist direction (Q) 276
Yarn, cotton—Defects in cotton yarn. A. D. Barnard 546
Mixing and blending of stock. A. K. Landau 244
Yarn, rayon—Quality in rayon is fall aim of producers 528
Wool and rayon hosiery yarn (Q) 276
Yarn, woolen—Noble comb adjustments for spinning fine yarns. F. B. Hudson.. 66
Rayon and wool hosiery yarn (Q) 276
Yarn, worsted—Thickness measured to find levelness. G. R. Stanbury 255

(Q) Questions and answers

Authors' Index

A

Alden, John: Value of waste heat..... 759
Alexander, Robert S.: Mill newspapers considered 1184
Alling, Myron W.: Profits in printing ... are they possible today? 740
Archer, Fred: Bleaching mohair plush... 557

B

Baker, Franz E.: Rayon hosiery holds popularity 526
Barnard, Albert D.: Cotton yarn defects.. 546
Beardwood, James: Dealing with slack times 563
Beheler, W. C.: Mill newspapers considered..1185
Blackmah, B. D.: Frosted georgette.....1160
Bokum, R. C.: Sharing cost data..... 272
Bower, Ernest: Designating direction of twist (Q) 276
Butler, William H.: Angora rabbit wool. 540
Byrd, F. L.: Keeping trade secrets..... 774

C

Cahill, J. Frederick: Cut-presser diagonals in circular spring needle design..... 70
Clayton, H. E.: Progress in half hose.... 54
Cobb, Joseph C.: Long draft vs. regular —results of some recent mill tests.. 738
Spinning room records simplified by chart 52
Collier, Paul R.: Automobile man looks at the textile industry 1150
Copeland, Dr. Melvin T.: Merchandising job 732
Cottrell, Ray: Processing rayon fabrics.. 534

D

Dickens, C. A.: Straight wire clothing—card setting and grinding 550
Drake, Robert W.: How to obtain satisfactory service from belted motor drives 260
Dunlap, E. S.: Mill newspapers considered.1184

E

Esty, J. Carleton: Six-hour day..... 97

F

France, A. Ward: Knitted men's wear reduced in cost on circular machines.. 253
Franks, H., and J. B. Speakman: Wool oiling tests 548

G

Gammel, S. B.: Modernized boiler plant gives 31% savings in operating costs. 984
Gilston, Stewart H.: Advance layout of work important in throwing.....1164
Progress in rayon throwing..... 524
Gossett, B. B.: Call for action to correct abuses in cotton textile merchandising. 48
Gregg, G. E.: What price experience?..... 563

H

Halsey, J. G.: Knowledge and tact indispensable to silk examiner 976
Harless, L. M.: French comb is practical for long wools 960
Harris, Robert H.: Skein-dyeing rayon... 536
Hart, T. R.: Mock-leno design 728
Hatch, Charles H.: Wage study in wool mill cut costs 30%; maintained quality 240
Hayes, Benjamin F.: Hints for loomfixer on setting wool-loom stop and head motions 76
Timing lock knife and repairing wool-loom vibrations 971
Hennessy, A. P.: Promoting second hands. 986
Herman, Will: Keeping trade secrets..... 774
Herrick, W. E.: Finishing knit goods.... 970
Herstein, Karl M.: Preventing mildew in sizing and finishing 78
Hotchkiss, John F.: Sharing cost data.... 272
Hudson, Frederick B.: Noble comb adjustments for producing fine yarn..... 66
Successful open drawing of wasty tops.1165
Worsted card grinding 753

I

Iler, H. H.: Keeping trade secrets 775
Sharing cost data 272

J

Jarmak, Jack: Finishing transparent velvets 535
Jefferson, Floyd W.: Merger proposed as stabilizer in cotton goods distribution. 226
Jordan, Edward F.: Rayon crepes—finishing methods to overcome various defects 739
Jury, A. E.: Mill villages—their improvement and maintenance 69

K

Kendall, Henry P.: Flexible work week.. 539
Krais, P., and H. Markert: Finding amount of rayon and other fibers in mixed textiles 754

L

Landau, Alfred K.: Break draft, a neglected detail of cotton spinning 1169
Effective mixing forced by weak cotton and higher yarn standard..... 244
Laufer, Thomas G.: Finishing plant costs 236
Layzell, Alfred: Dealing with slack times. 562
Leister, G. W.: Promoting second hands. 987
Logan, George L.: Danger fades—cheapening of rayon outerwear and underwear retarded 533

M

Markert, H., and P. Krais: Finding amount of rayon and other fibers in mixed textiles 754
Mattmann, Carl C., Jr.: Rough crepes new feature 566
McNeice, Francis J.: Promoting second hands 987
Miller, M. C.: Full-fashioned narrowing—putting on the loops 74
Full-fashioned narrowing demands accurate setting 736
Mosher, H. H.: Acid degumming deemed advisable for silk wool unions.....1170
Usual degumming methods harmful to silk wool unions 980
Mullin, Charles E.: Japan expands facilities for silk conditioning 553

N

Nelson, Thomas: Handbag fabrics 1163
Three crimp methods for weaving seersucker 73
Niles, Paul W.: Knit-underwear design.. 744
Norris, Webster: Worsted sliver guides... 551
